

**US 36/US 68 Intersection Improvement Rebid
(ODOT PID #103793)
Addendum #1**

To: All Bidders
From: Tyler Bumbalough; City of Urbana Engineer
Date: January 28, 2019
Re: Addendum #1

Pavement Marking Clarification

Q: I understand that this project is the first phase of improvements at this intersection so there is removal of pavement markings and Item 642 for the pavement markings prior to the next phase that involves resurfacing. Sheet 66 of 83 contains the pavement marking legend but the item types listed are 644 and 645 which differ from the bid sheet and the rest of the plans. I assume these should all be Item 642?

A: The markings shall be 642 (Traffic Paint). All other sheets including the general summary and cost estimate show 642. The legend on sheet 66 has been updated and is being provided as part of this addendum. The updated sheet 66 shall supersede the previous version.

Bid Proposal Form

Several bidders have requested a copy of the bid proposal form in Excel format. As part of the distribution of this addendum, construction bidders are being provided with the bid proposal form in Word format which includes a table of all items and quantities. For any bidders who obtain the plans and bid documents for this project after the issuance of this addendum, these bidders can email: doug.crabill@ci.urbana.oh.us to request an electronic copy of this document.
