

**Champaign Countywide Communication Center**  
**Office of 9-1-1 Director of Communications**  
**Amy Collins**

April 29, 2026

Dear Champaign County Residents,

Following the security breach that affected the county's previous alerting system, CodeRED, in November, the county has taken steps to ensure a more secure and reliable method of delivering emergency notifications.

We are pleased to introduce our new alerting platform, Everbridge. This system offers enhanced security, dependable performance, and a unified solution for sending emergency messages. Everbridge is trusted by millions of users across more than 200 countries and territories and incorporates over 325 security controls. It delivers real-time alerts and instructions through multiple channels, including SMS, email, desktop notifications, and voice calls.

Please note that all residents must complete a new registration to receive alerts through Everbridge, even if you were previously signed up for CodeRED. Without registration, you will not receive emergency notifications.

We strongly encourage you to follow the registration instructions as soon as possible to stay informed and protected.

**There are two ways that you can register:**

**Website:** <https://member.everbridge.net/index/88752814817501>

**QR Code:**
