

Create a lasting remembrance of a loved one, commemorate a special achievement, or honor a deserving person or organization, by sponsoring a tree through the

City of Urbana Memorial Tree Program

The City of Urbana will purchase, plant, and maintain Memorial Trees at Oakdale Cemetery, Melvin Miller Park, or other city parkland. Trees will be replaced for up to three years, if necessary.

All Memorial Trees will be purchased for autumn planting as balled & burlapped stock with 2-inch average trunk diameter. Application deadline for planting each year is September 15th.

Planting at Oakdale will be near the gravesite of the person(s) in memorial. The exact location of each tree will be determined by the Cemetery Superintendent, in coordination with the Shade Tree Commission. The city will make every effort to provide the species of tree requested, but in the event of non-availability, the tree species will be determined in accordance with the city tree plan. Oak (Quercus) species are encouraged. The city will contact you when planting is complete to thank you for your gift and provide the location of the tree.

Cost is \$350, and payment is due with application. The cost includes an etched paver block that will be placed near the tree.

To sponsor a tree in the Memorial Tree Program, please provide the information requested on the next page.
